RECEPTAL®

Suction Canister and Liner System

The **RECEPTAL**® Suction Canister and Liner System is one of the most cost effective models in waste fluid collection. This system combines the benefits of both a reusable canister and a disposable liner with permanently attached lid and tubing, simplifying set up time, reducing costs and providing additional protection.

RECEPTAL® Liners and **EZE-VAC**® Canisters include an anti-foaming emulsion that prevents froth formation and aerosolization, reducing the risk of contaminant exposure while maximizing fluid capacity. These efficient systems securely isolate suction waste with single, dual and multiple configurations that provide fluid capacity up to 24L without disconnection.

Both systems support best practice by integrating **VAC-GARD**®, a non-mechanical shut-off valve that prevents back flow of aerosols and fluids into the vacuum system, and includes a 0.3 micron bacterial eliminating filter effective in removing 99.9% of pseudomonas.

EZE-VAC®

Suction Canister System

The **EZE-VAC**® Suction Canister System is single-use, designed for convenience by removing the need for a secondary waste liner. The canister and lid provide a vacuum tight seal at room temperature, improving suction performance and reducing risk during disposal. The lid ports are clearly marked and come with pre-attached elbows to simplify set up.

Amsino is a leading global provider of waste fluid management systems. For nearly a decade, Amsino has been manufacturing a wide range of suction products to the highest quality standards and has developed some of the most advanced waste fluid management systems in the world. In 2014, Amsino acquired global product rights for the **RECEPTAL®** Suction Product Line, to further enhance our offerings in waste fluid management.

RECEPTAL® Waste Fluid Management Systems help Hospitals manage Suction Waste by providing, Simple, Safe and Complete Solutions.

- **Complete Suction System**
- **Highest Quality and Reliability**
- **Superior Bacterial Filtration Efficiency**
- **Easy to Use**
- **Cost Saving**
- **Professional Advice, Guidance and Training on Waste Fluid Management**

Advancing Healthcare Worldwide®

RECEPTAL® Canisters

RECEPTAL® Canisters are made of polycarbonate material designed with durability and efficiency in mind.

The Canister must be used with the same volume size **RECEPTAL®** Disposable Liner.

The canister ring seal firmly secures the liner lid to the canister, maximizing vacuum power to provide the best clinical outcomes.

Large, easy to read volume marks in 25 mL increments help with patient documentation.

Canister "T" designates vacuum source connection to simplify canister set up.

1000 mL Canister

(Use with 1000 mL Disposable Liner only)

Item	Description	Qty/Unit
43449-05	1000 mL RECEPTAL® Canister	10/Case

1500 mL Canister

(Use with 1500 mL Disposable Liner only)

Item	Description	Qty/Unit
43423-01	1500 mL RECEPTAL® Canister	10/Case

2000 mL Canister

(Use with 2000 mL Disposable Liner only)

Item	Description	Qty/Unit
43445-01	2000 mL RECEPTAL® Canister	10/Case

3000 mL Canister

(Use with 3000 mL Disposable Liner only)

Item	Description	Qty/Unit
43503-01	3000 mL RECEPTAL® Canister	8/Case

RECEPTAL® Liners are designed with permanently attached lids and a multifunctional lid tube which helps decrease the risk of fluid exposure and improves ease-of-use. The liners include an anti-foaming emulsion that prevents froth formation and aerosolization, reducing the risk of contaminant exposure while maximizing fluid capacity.

These disposable liners support best practice by integrating **VAC-GARD®**, a non-mechanical shut-off valve that prevents back flow of aerosols and fluids into the vacuum system, and includes a 0.3 micron bacterial eliminating filter effective in removing 99.9% of pseudomonas.

- **100% leak tested seamless liners minimize risk of contamination**
- **Integrated rotating lid tube promotes ease of set-up and cost efficiency**
- **Multiple liner options to meet your clinical and safety needs**

1000 mL Liner

Item	Description	Qty/Unit
43010-05	1000 mL RECEPTAL® Liner with VAC-GARD® and Pour Spout	50/Case

1500 mL Liners

Item	Description	Qty/Unit
43025-01	1500 mL RECEPTAL® Liner with Pour Spout	50/Case
43044-01	1500 mL RECEPTAL® Liner with VAC-GARD® and Pour Spout	50/Case

2000 mL Liners

Item	Description	Qty/Unit
43027-01	2000 mL RECEPTAL® Liner with Pour Spout	50/Case
43041-01	2000 mL RECEPTAL® Liner with 3/8 in. (0.95 cm) Orthopedic Port	50/Case
43042-01	2000 mL RECEPTAL® Liner with VAC-GARD®	50/Case
43044-05	2000 mL RECEPTAL® Liner with VAC-GARD® and Pour Spout	50/Case

3000 mL Liners

Item	Description	Qty/Unit
0L655-01	3000 mL RECEPTAL® Liner with VAC-GARD® and 3/8 in. (0.95 cm) Orthopedic Port	50/Case
0L656-01	3000 mL RECEPTAL® Liner with 3/8 in. (0.95 cm) Orthopedic Port	50/Case

EZE-VAC® Canisters

The **EZE-VAC®** Suction Canister System is single-use, designed for convenience by removing the need for a secondary waste liner. The canisters include an anti-foaming emulsion that prevents froth formation and aerosolization, reducing the risk of contaminant exposure while maximizing fluid capacity.

EZE-VAC® Canisters support best practice by integrating **VAC-GARD®**, a non-mechanical shut-off valve that prevents back flow of aerosols and fluids into the vacuum system, and includes a 0.3 micron bacterial eliminating filter effective in removing 99.9% of pseudomonas.

- **Lid attaches firmly to the canister, maximizing vacuum power and reduces risk of leakage**
- **Easy-to-read volume marks help with patient documentation**
- **Reflux protector on patient port reduces contamination exposure risk**

700 mL Canister

Item	Description	Qty/Unit
43207-01	700 mL EZE-VAC® ACCU-MEASURE® Critical Measurement Device and Lid with 2 Elbows	32/Case

1200 mL Canister

Item	Description	Qty/Unit
43203-01	1200 mL EZE-VAC® Canister and Lid with 2 Elbows	32/Case

2000 mL Canister

Item	Description	Qty/Unit
43206-01	2000 mL EZE-VAC® Canister and Lid with 2 Elbows	24/Case

3300 mL Canister

Item	Description	Qty/Unit
43213-01	3300 mL EZE-VAC® Canister and Lid with 2 Elbows	12/Case

ACCU-MEASURE® Critical Measurement Devices

ACCU-MEASURE® critical measurement devices enable the user to make contact-free critical measurements of smaller quantities of aspirate (i.e. during pediatric procedures).

The **RECEPTAL® ACCU-MEASURE®** is a disposable, tapered 250 mL critical measurement device calibrated to scale. Graduations in 5 mL increments from 0 to 50 mL, 10 mL increments from 50 mL to 150 mL and 20 mL increments from 150 mL to 250 mL.

The **EZE-VAC® ACCU-MEASURE®** is a stand alone, disposable 700 mL critical measurement device. Graduations are shown in 5 mL increments from 0 to 100 mL, 10 mL increments from 100 mL to 300 mL and 25 mL increments from 300 mL to 700 mL.

RECEPTAL® ACCU-MEASURE® Device

Item	Description	Qty/Unit
43306-01	250 mL ACCU-MEASURE® Critical Measurement 12/Case Device with Tandem Tube (attaches to side of the RECEPTAL® Canister, use Item 43305-10)	
43305-10	Canister Attachment Bracket for RECEPTAL® ACCU-MEASURE® Device for use with 1000 mL, 1500 mL and 2000 mL Canisters	10/Case

EZE-VAC® ACCU-MEASURE® Device

Item	Description	Qty/Unit
43207-01	700 mL ACCU-MEASURE® Critical Measurement Device and Lid with 2 Elbows	32/Case

Specimen Trap

(Use with Collection Port when tissue specimen is required)

Item	Description	Qty/Unit
43303-01	Specimen Trap 4 in. (10.16cm) Pour Spout Cover with 3/8 in. (0.95 cm) Collection Port, Tethered Cap	24/Case
43303-02	Specimen Trap 4 in. (10.16cm) Pour Spout Cover with 3/8 in. (0.95 cm) Collection Port, Tethered Cap and Stiffener	24/Case
43303-05	Specimen Trap 8 in. (20.32 cm) Pour Spout Cover with 1/2 in. (1.27 cm) Collection Port, Tethered Cap and Stiffener	24/Case

External VAC-GARD® Shut-Off Filter

Item	Description	Qty/Unit
43309-01	External VAC-GARD® 0.3 micron Bacteria Eliminating Polymeric Shut-Off Filter	10/Case

Tubing

Suction Tubing

(For Canister to vacuum connection)

Item	Description	Qty/Unit
43455-01	100 ft. (30.48 m) PVC Non-Sterile Suction Tubing 9/32 in. (7 mm) I.D.	1/Case
43457-25	24 in. PVC Non-Sterile Suction Tubing 9/32 in. (7 mm) I.D.	25/Case
43311-01	6 ft. (1.83 m) Non-Sterile Suction Tubing 9/32 in. (7 mm) I.D. with Blue Connectors	50/Case

EZE-VAC® 18 in. Tandem Tubing

Item	Description	Qty/Unit
43317-25	EZE-VAC® 18 in. (45.72 cm) Tandem Tubing	25/Case

RECEPTAL® & EZE-VAC® Accessories

RECEPTAL® Elbow Adapter

(Use with Patient Port)

Item	Description	Qty/Unit
43316-01	RECEPTAL® Male 1/4 in. (0.64 cm) x Female 1/4 in. (0.63 cm) Elbow	100/Case
43494-25	RECEPTAL® Male 1/4 in. (0.64 cm) x Female 1/4 in. (0.63 cm) Elbow	25/Case

RECEPTAL® Taper

(Use with 3/8 in. (.95 cm) Orthopedic Port)

Item	Description	Qty/Unit
43473-25	RECEPTAL® Double 1/4 in. (0.64 cm) Male Taper	25/Case

RECEPTAL® ACCU-MEASURE® Device Bracket

(For use with Item 43306-01)

Item	Description	Qty/Unit
43305-10	Canister Attachment Bracket for RECEPTAL® ACCU-MEASURE® Device for use with 1000 mL, 1500 mL and 2000 mL Canisters	10/Case

RECEPTAL® Canister Vacuum "T"

(Attach to Canister for vacuum suction)

Item	Description	Qty/Unit
44300-05	RECEPTAL® Double 1/4 in. (0.64 cm) Male "T", "O" Ring and Screw	5/Case

RECEPTAL® Vacuum Taper

(Use with Canister Vacuum "T")

Item	Description	Qty/Unit
43448-25	RECEPTAL® 1/4 in. (0.64 cm) Male and 1/4 in. (0.63 cm) Female Vacuum Taper	25/Case

AMSure® Suction Yankauers

The *AMSure*® Suction Yankauer Collection is designed with shatter-resistant materials. The slip-resistant, lightweight handle helps provide optimal control and maneuverability. A translucent pathway allows for fluid visualization and the smooth tips are designed with side eyes to minimize the chance of tissue grab and damage.

- Sterile vented and non-vented
- Rigid and flexible handles
- Fine, Regular and Bulbous tips

Regular and Bulbous Tips

Non-Vented and Vented

AMSure® Yankauer Rigid

Item	Description	Qty/Unit
AS830	Regular Beveled Tip, Non-Vented	50/Case
AS831	Regular Beveled Tip, Vented	50/Case
AS832	Bulbous Tip, Non-Vented	50/Case
AS833	Bulbous Tip, Vented	50/Case

AMSure® Yankauer Flexible

Item	Description	Qty/Unit
AS834	Regular Beveled Tip, Non-Vented	50/Case
AS835	Regular Beveled Tip, Vented	50/Case
AS836	Bulbous Tip, Non-Vented	50/Case
AS837	Bulbous Tip, Vented	50/Case
AS838	Fine Tip, Non-Vented	50/Case
AS839	Fine Tip, Vented	50/Case

AMSure® Yankauer Kit

Item	Description	Qty/Unit
AS825P	Rigid Yankauer, Non-Vented with Bulbous Tip pre-attached to 1/4 in. (6 mm) x 6 ft. (1.8 m) Sterile Suction Tubing	50/Case
AS826P	Rigid Yankauer, Non-Vented with Bulbous Tip pre-attached to 1/4 in. (6 mm) x 10 ft. (3.0 m) Sterile Suction Tubing	50/Case
AS827P	Rigid Yankauer, Non-Vented with Bulbous Tip pre-attached to 1/4 in. (6 mm) x 12 ft. (3.7 m) Sterile Suction Tubing	50/Case

AMSure® Suction Tubing with Connectors

AMSure® Suction Tubing, with molded female connectors and male adapters, provides secure connections to support uninterrupted procedures. The striated PVC tubing with low coil memory is strong and collapse-resistant at high vacuum pressure yet flexible for ease of draping, promoting best clinical outcomes.

- **Sterile and non-sterile tubing**
- **Inner diameter sizes: 3/16 in., 1/4 in., and 9/32 in.**
- **Tubing lengths: 18 in., 6 ft., 10 ft., 12 ft. and 20 ft.**

AMSure® Sterile Suction tubing

Item	Inner Dia. x Length	Connector	Qty/Unit
AS820	3/16 in. x 18 in. (5 mm x 46 cm)	Green	50 /Case

AS827BM	9/32 in. x 12 ft. (7mm x 3.7m)	Medium Blue	50 /Case
AS828BM	9/32 in. x 20 ft. (7 mm x 6.1 m)	Medium Blue	50 /Case

Canister Brackets

Wall Bracket

Item	Description	Qty/Unit
43444-05	Wall channel bracket for mounting Canister, stainless steel	5/Case

Bracket Clamp Adapter

Item	Description	Qty/Unit
44303-10	Bracket Clamp for adapting Wall Bracket (43444-05) to fit stands, carts or IV poles, stainless steel	10/Case

Canister Support Bracket

(Use with 1000 mL, 1200 mL and 1500 mL Canisters)

Item	Description	Qty/Unit
44304-05	Canister Support Bracket to attach Canister directly to a vacuum regulator	5/Case

Floor Stands

Adjustable Floor Stand

Item	Description	Qty/Unit
43475-01	Adjustable-height, small head, stainless steel floor stand with rollers, conductive casters, holds multiple RECEPTAL® and EZE-VAC® Canisters	1/Case

RECEPTAL® In-Line Quad Floor Stand

(Use with 1500 mL and 2000 mL Canisters)

Item	Description	Qty/Unit
43447-01	RECEPTAL® In-Line Quad Floor Stand, stainless steel with rollers, conductive casters	1/Case

RECEPTAL® Tandem and Single Floor Stands

(Use with 1500 mL and 2000 mL Canisters)

Item	Description	Qty/Unit
43432-01	RECEPTAL® Tandem Floor Stand, stainless steel with rollers, conductive casters	1/Case

RECEPTAL® & EZE-VAC® Reusable Hardware

Canister Supports

RECEPTAL® Tandem Long Canister Support

Item	Description	Qty/Unit
43429-01	RECEPTAL® tandem long canister support, use with 1500 mL and 2000 mL Canisters, shown on Wall Bracket (Item 43444-05)	1/Case
43439-01	RECEPTAL® tandem long canister support, use with 3000 mL Canisters	1/Case

RECEPTAL® Single Long Canister Support

Item	Description	Qty/Unit
43426-05	RECEPTAL® single long canister support, use with 1500 mL and 2000 mL Canisters, shown on Wall Bracket (Item 43444-05)	5/Case
43436-05	RECEPTAL® single long canister support, use with 3000 mL Canisters	5/Case

RECEPTAL® Single Long Canister Support with Regulator Mount

(Use with 1500 mL and 2000 mL Canisters)

Item	Description	Qty/Unit
43428-05	RECEPTAL® single long canister support with mounting plate for vacuum regulator, shown on Wall Bracket (Item 43444-05)	5/Case

RECEPTAL® Single Short Canister Support

(Use with 1000 mL Canister)

Item	Description	Qty/Unit
43425-05	RECEPTAL® single short canister support, shown on Wall Bracket (Item 43444-05)	5/Case

EZE-VAC® Single Canister Support

Item	Description	Qty/Unit
43469-12	EZE-VAC® canister ring support, shown on Wall Bracket (Item 43444-05)	12/Case

43426-05

Regulator Mount

(Use to attach regulator alone or to other supports)

Item	Description	Qty/Unit
43408-05	Regulator Mount, 1/8 in. (0.32 cm) male pipe thread x 1/4 in. (0.64 cm) male taper with 1-1/8 in. (2.86 cm) threaded shank and 2 locknuts	5/Case

Regulator Mount DISS

(Use to attach regulator alone or to other supports)

Item	Description	Qty/Unit
43401-05	Regulator Mount Male DISS x 1/4 in. (0.64 cm) taper with 1-1/4 in. (3.18 cm) shank	5/Case

Regulator Mounts

Regulator Mount

(For use when regulator is wall mounted to vacuum and a simple taper is needed to attach tubing to regulator)

Item	Description	Qty/Unit
43422-05	Regulator Mount, 1/8 in. (0.32 cm) male pipe thread x 1/4 in. (0.64 cm) male taper	5/Case

Regulator Mount DISS

(For use when regulator is wall mounted to vacuum and a simple taper is needed to attach tubing to regulator)

Item	Description	Qty/Unit
43400-05	Regulator Mount M-DISS x 1/4 in. (0.64 cm) male taper	5/Case

The basic components required for **RECEPTAL®** set up:

The single canister set up is used for simple or short procedures, not requiring a large waste suction volume.

RECEPTAL® Single Canister and Liner Set-up

1. Place canister into support.

2. Insert same size liner with VAC-GARD® and secure liner lid to canister.

3. Connect lid VAC-GARD® blue tubing and vacuum tubing to canister "T".

4. Connect patient tubing to patient port. Cap all ports not in use.

For complete procedural set-up, refer to Instructions For Use Guide

Waste Fluid Management Systems Set-up

The basic components required for **EZE-VAC®** set up:

EZE-VAC® Single Canister Set-up

1. Select canister size and secure lid to canister.

2. Select support.

3. Place canister in support, connect vacuum tubing to vacuum port elbow on lid.

4. Connect patient tubing to patient port elbow on lid. Cap all ports not in use.

For complete procedural set-up, refer to Instructions For Use Guide

When two or more canisters are required, the set-up can be used by placing the canisters side by side, interconnected, via a piece of vacuum tubing.

RECEPTAL® Tandem Canister and Liner Set-up

1. Select canister size and support. Place canisters into support.

2. Connect canister "T"s with vacuum tubing.

3. Insert same size liners (1 with and 1 without VAC-GARD®), secure liner lids to canisters.

4. Connect lid VAC-GARD® blue tubing and vacuum tubing to canister "T".

5. Connect lid tandem tubing (clear) to patient port of the lid with blue tubing.

6. Connect patient tubing to patient port. Cap all ports not in use.

Tandem Wall Mount Set-up

For complete procedural set-up, refer to Instructions For Use Guide

Waste Fluid Management Systems Set-up

Multiple canisters are particularly suited for procedures that can generate high volumes of waste. The principle of multiple set-up is the same as the tandem set-up.

RECEPTAL® Multiple Canister and Liner Set-up

1. Select canister size and supports. Attach supports to floor stand.

2. Insert canisters into supports.

3. Insert same size liners (1 with VAC-GARD® and remaining liners without), secure liner lids to canisters.

4. Interconnect canister "T"s with vacuum tubing. Attach the lid VAC-GARD® blue tubing and vacuum tubing to the remaining open "T" ports.

5. Connect lid tandem tubing (clear) to patient port of the lid with blue tubing. Repeat process until all liners are connected.

6. Connect patient tubing to patient port. Cap all ports not in use.

In-Line Quad Floor Stand Set-up

For complete procedural set-up, refer to Instructions For Use Guide

Multiple canisters are particularly suited for procedures that can generate high volumes of waste. The canisters are interconnected using EZE-VAC® tandem tubing.

EZE-VAC® Multiple Canister Set-up

1. Attach supports to floor stand. Select canister size and secure lids to canisters.

2. Place canisters into supports. Connect vacuum tubing to vacuum port elbow on lid. Secure vacuum port caps on remaining canisters.

3. Connect ortho port to adjacent patient port with tandem tubing (Item 43317-25). Repeat until all canisters are connected.

4. Connect patient tubing to patient port elbow on lid.

For complete procedural set-up, refer to Instructions For Use Guide

Waste Fluid Management Systems Set-up

External VAC-GARD® Set-up

1. Select RECEPTAL® canister size and same size liner without integrated VAC-GARD® blue tubing. Insert external VAC-GARD® onto canister "T".

2. Attach lid tubing to external VAC-GARD®. Connect vacuum tubing to canister "T".

3. Connect patient tubing to patient port. Cap all ports not in use.

RECEPTAL® ACCU-MEASURE® Set-up

1. Select RECEPTAL® canister size and attach ACCU-MEASURE® bracket.

2. Slide 250 mL ACCU-MEASURE® device onto bracket.

3. Follow RECEPTAL® single liner set-up. Use tandem tubing to connect vacuum port of ACCU-MEASURE® to patient port of liner lid.

4. Connect patient tubing to ACCU-MEASURE® patient port. Cap all ports not in use.

For complete procedural set-up, refer to Instructions For Use Guide

Disconnect and Disposal

RECEPTAL® Liner Disconnect and Disposal

1. Leave vacuum switched on at the end of the procedure.

2. Remove patient suction tubing from patient port and discard.

3. Disconnect liner lid tubing from canister "T" and immediately reconnect to patient port with push and twist motion (friction lock).

Additional Comments

- Cap any port not in use.
- Do not use lid tubing as a handle to lift liner.
- Amsino recommends exercising universal precautions during handling and disposal.

EZE-VAC® Canister Disconnect and Disposal

1. Remove patient and vacuum tubing.

2. Cap all ports with tethered caps provided.

Additional Comments

- The canister and lid are disposable and intended for single use.
- Amsino recommends exercising universal precautions during handling and disposal.
