

# One Mask™

## A single mask for all tasks

The One Mask is a replacement mask for virtually every type of oxygen mask on the market with its ability to provide  $\text{FiO}_2$  ranges from 28% to 99% by simply changing the flow rate of oxygen.

### Patient Safety

- Design reduces the risk of  $\text{CO}_2$  rebreathing
- No loss of  $\text{FiO}_2$  levels due to mask changes
- Medication delivery without sacrificing  $\text{FiO}_2$

### Patient Comfort

- Accommodates NG and OG tube
- Access for hydration, oral suction or oral medicine

### Clinical Efficiency

- Administer high  $\text{FiO}_2$  with low flow
- Efficient  $\text{FiO}_2$  escalation and de-escalation management
- Cost-effective inventory management

## 28%-99% Oxygen Delivery

The One Mask accurately administers oxygen from 28%-99% without changing masks. It provides the ability to administer aerosol and nebulizer medication without interrupting oxygen therapy. Ultimately, the One Mask is designed to improve patient safety, patient comfort and clinical efficiency.

Nebulizer with oxygen therapy

Offload NG or OG tube

Aerosol with oxygen therapy

Access for oral suction, improved communication, and hydration

Item Code	Description	UOM/Case
OM001	Mask, Adapter, 7' Oxygen Tubing with Label	50
