STERiCADi™

Suction Device Holster System
A preferred infection control safeguard

SteriCadi™ is a disposable holder to store suction devices. The intuitive design is easy to set up and use to help support better infection control outcomes.

• Suction devices can be isolated to help reduce cross-contamination and improve safety measures

• Secretion reservoir with safety tip promotes suction device drainage

• Clip design with tubing clasp provides a secure attachment

• Compatible with different suction devices: Multiple Yankauer devices, suction tubes and catheters

Designed to create convenient, consistent placement for suction device storage to help support better infection control measures for patients and caregivers.

Flex-Field Angle is designed to house a variety of suction devices to help support storage standardization

Secretion reservoir with safety tip promotes suction device drainage

Tubing clasp provides a secure attachment
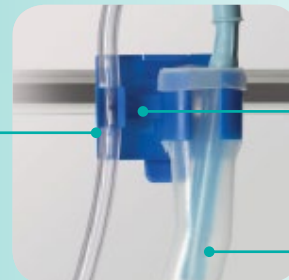

Holder clamp attaches easily to bed rail

Angled to fit a variety of suction devices
